- The AIGI Young Members / Group for the Internationalization of In-House Lawyers (the “Group”) believe that the In-House Lawyer shall be not only a **legal professional**, but also a **manager** with the ability to work in an international environment, managing complex domestic and non-domestic issues and granting an highly qualified advice on different areas of law in an international framework.
- On 2016, the Group has submitted to the AIGI Board a proposal, related to the possible organization by the Association of a **fully dedicated event**, with the view to creating a **moment** for the AIGI Members **to develop their professional skill in an international perspective**, but also to **meet each other** and **make connections** during specific occasions of **networking**.
- The AIGI Board has approved the proposal and does strongly support the Group’s project. A real training-camp for in-house lawyers, this is our idea of the AIGI Summer School!

Please find below the main characteristics of the event that we are currently organizing.

**WE LOOK FORWARD TO MEETING YOU ON JULY AT OUR FIRST AIGI SUMMER SCHOOL!**
