

Dear ECLA Representatives

We would like to provide you with a concise list of all the benefits that ECLA will offer to its member associations in the upcoming months (up until end of 2019). Please do note that if you need any additional information or any promotional materials (advertisements, images, text), please do let me know and I will gladly provide you with what you requested.

Even though the year is quickly coming to an end, ECLA still has three key activities and publications lined up – an online webinar for implementing legal tech, a pan-European survey into the usage of legal tech, and our Yearbook, designed to give a detailed overview of the company lawyer profession across Europe.

1. ECLA Webcast Series: How to Implement Technology in Your Legal Department, November 28, 11:30-12:30 CET

- Our webinar series that ECLA organises together with Wolters Kluwer. Our third and final session of the year will give practical tips on implementing legal tech within legal departments.
- Highly qualified speakers – definitely worth the hour-long investment
- Link: <https://ecla.eu/webinar>
- For whom?: Decision makers of legal departments across Europe & company lawyers interested in seeing the material benefits of legal technology in a legal department
- Excellent for anybody interested in legal technology, especially the practical aspect of it – how to implement it and how improve processes in your department

2. ECLA Legal Technology Study

- Pan-European study on the usage of legal tech in legal departments – provides a comparative aspect into how legal departments in different European countries have approached the challenge to modernise
- Easy to access online survey – takes 15 minutes to fill
- Processed strictly anonymously
- As a thank you, we will give all participants a free digital copy of the study when we will publish it
- Link: <https://ecla.eu/survey>
- For whom? Decision makers of legal departments
- To be released early 2020

3. ECLA Yearbook

- A comprehensive overview of the status of company lawyers across Europe
- Provides an in-depth look into the intrinsic differences between company lawyers in various European countries
- Excellent to use as a basis for all company-lawyer related discussions
- Gives a detailed overview of legal professional privilege and the applicability for in-house counsel across Europe

- To be released late 2019/early 2020 – **free in digital format for all Member Associations**
- For whom? Everyone who wants to learn more about the company lawyer profession in Europe and about legal professional privilege

Furthermore, ECLA is also planning our 2020 agenda – more information about our first Legal Disruption Roadshow event in 2020 (taking place in February) and our Annual Conference will be published in November!

Kind regards and greetings from Brussels

Marten Männis
